Date October, 2014
Re Seminar on Intelligent Transport Systems on October 29, 2014

To Whom It May Concern,

On the occasion of the visit of the Netherlands' Minister of Economic Affairs, Mr Henk Kamp and the signing of the Memorandum of Agreement between ITS Netherlands and ITS Japan, I have the pleasure to invite you to the **Seminar on Intelligent Transport Systems**, that will take place on **Wednesday, 29 October in Hotel Okura Tokyo**. Co-organizers are Connekt/ITS Netherlands and the Netherlands' Ministry of Economic Affairs. We thank ITS Japan for the support as well.

I especially recommend this seminar to all Japanese public and private organizations that are active in the field of Intelligent Transport Systems. This time the Dutch and Japanese speakers will focus on two themes "Automated driving" and "Open & Big Data" and will give an overview of the activities in these fields. Apart from the presentations (see attached program), there will be an opportunity for all participants for discussions during a reception afterwards.

Sincerely,

Radinck J. van Vollenhoven
Ambassador of the Netherlands
